

Amendment to the Specification

Please replace the first full paragraph on page 7 of the specification with the following amended paragraph:

Outlet port 28 in breath passage 24 communicates with the inlet port of valve 30, as indicated in Figure 2. Valve 30 includes a spool or valve member (not illustrated) normally biased by spring 66 to communicate the valve inlet port with outlet passage 68 extending a distance from recess 60 into block 14, as shown in Figures 4, 6 and 7. Passage 68 communicates with vent recess 40 through small area restriction 70 formed in block 14, shown in Figures 4 and 6.
